

RI Early Intervention Individualized Family Service Plan

Daily Activities and Routines

Child's Name Age ID# Date

When your Early Intervention team has a better understanding of your child and family's daily activities and routines, they are able to better align strategies and supports.

Strategies and supports that are more meaningful, help you and your child reach your outcomes more quickly. It is important to remember that you can share as much or as little as you would like.

Where do you, your child and any other immediate family members spend a typical day? If your child is not with you during some days, who is he/she with?

What times of the day do you find most enjoyable? Describe who is there and what everyone is doing.
