

# Germs Are Not for Sharing

By Elizabeth Verdick  
Illustrated by Marieka Heinlen

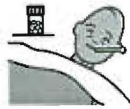

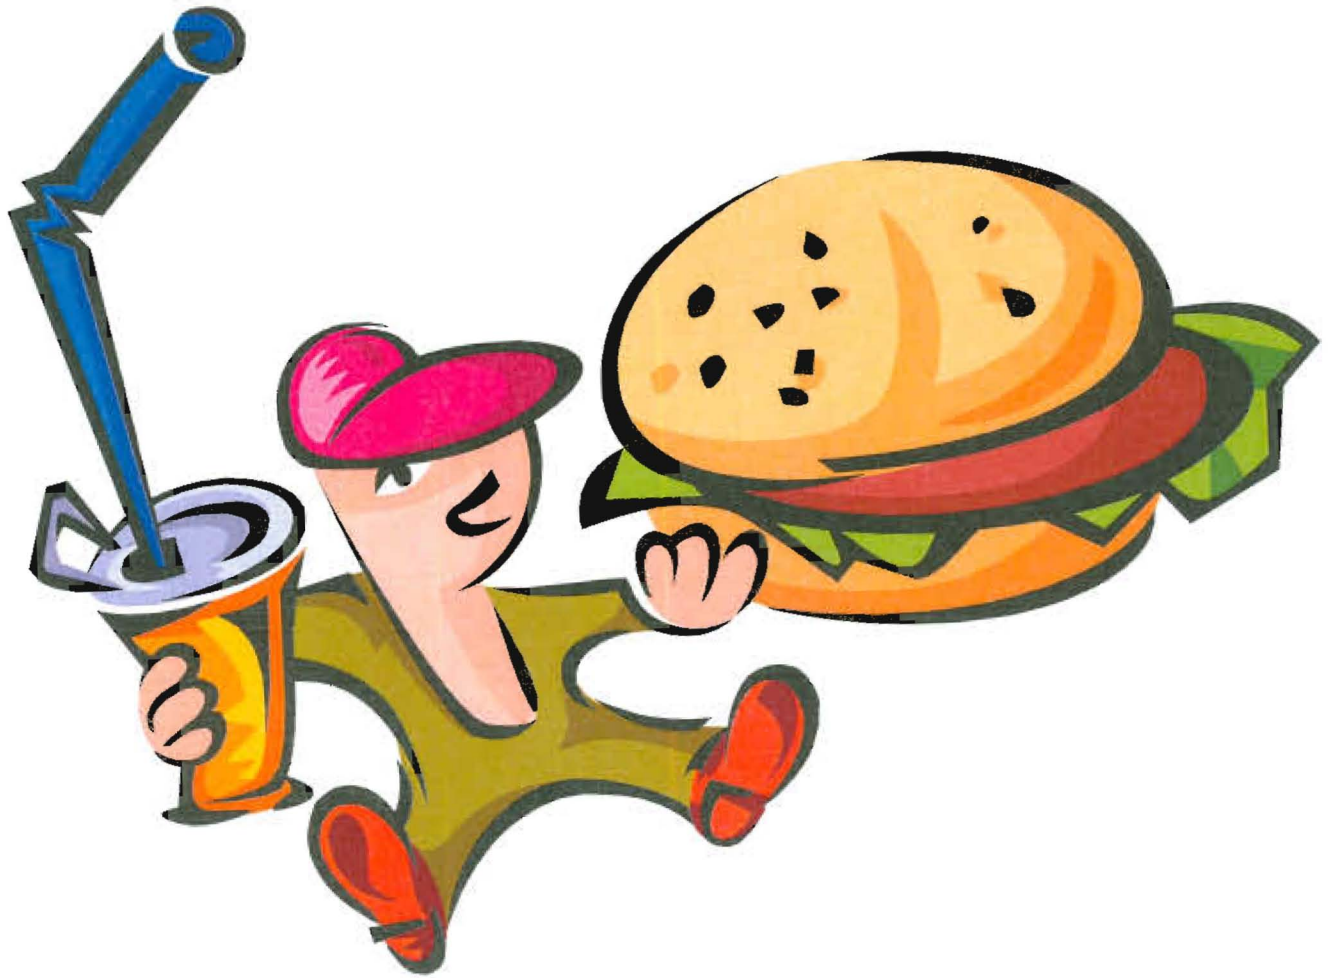

=

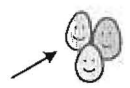

What are too small, but can make you

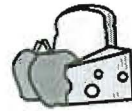

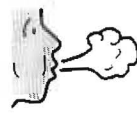

sick

=

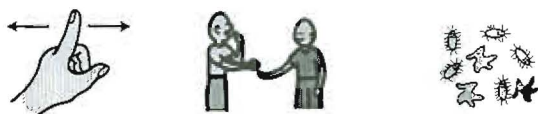

&

They are in the air, food, water and

on your body.

Don't share germs.

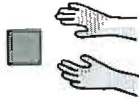

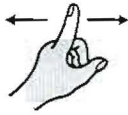

They make you sick.

Cover your nose with a tissue so germs

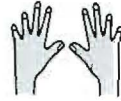

don't get out.

Cover your mouth like this...

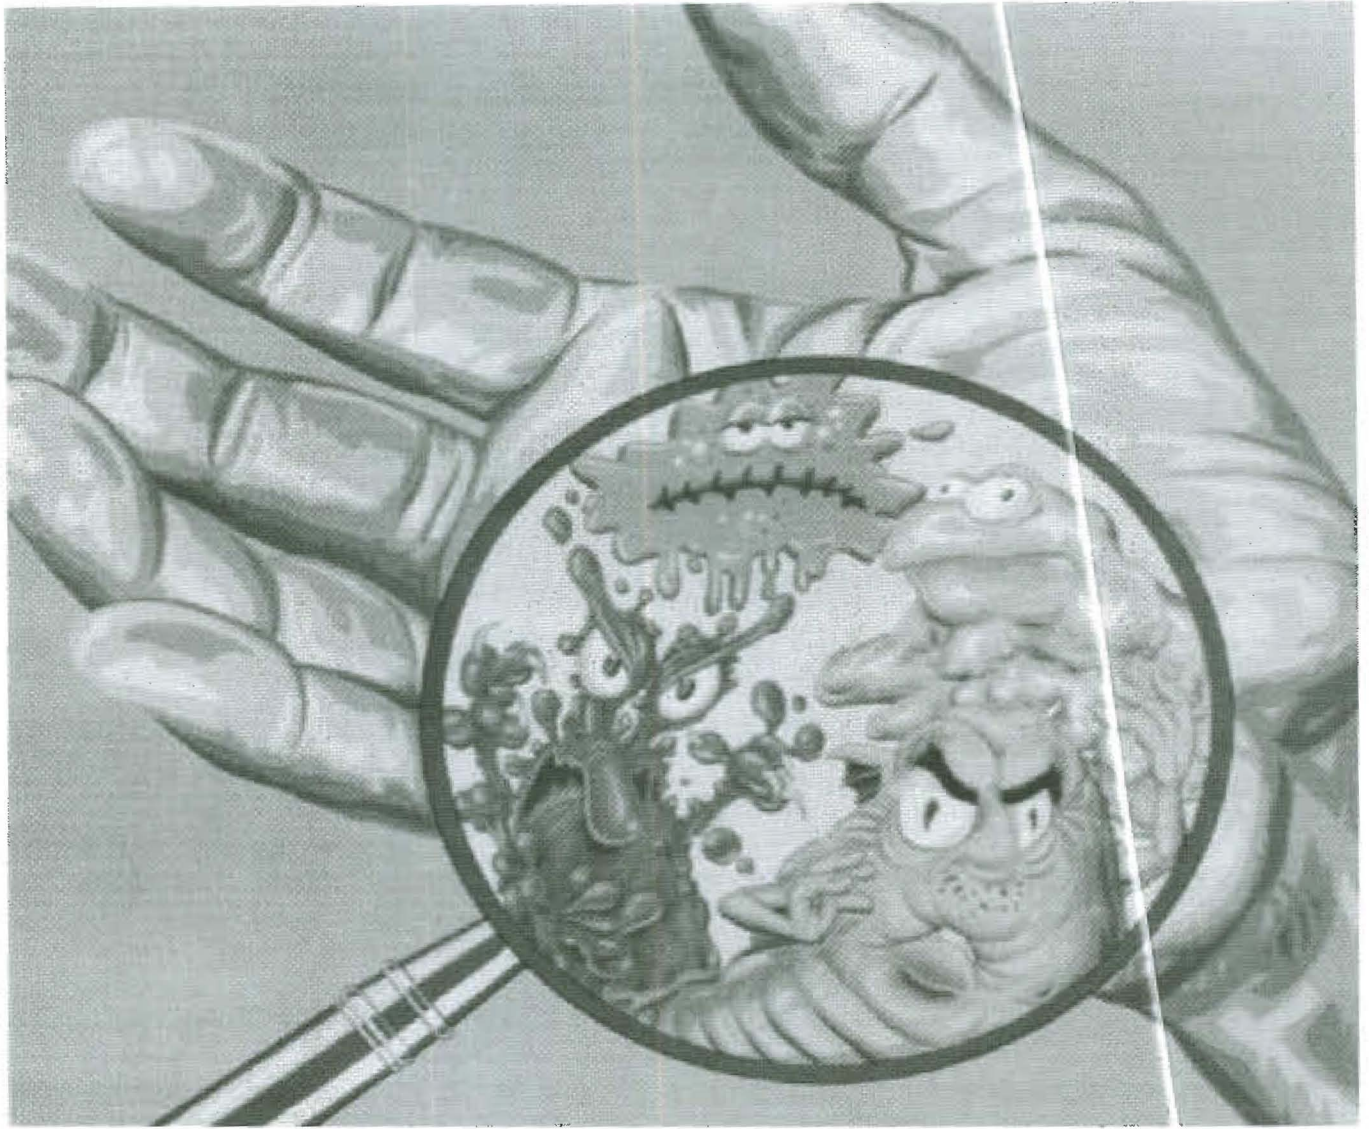

Wash your hands.

=

Germs are not for sharing.

If germs stay on your hands, you can

give germs to other people.

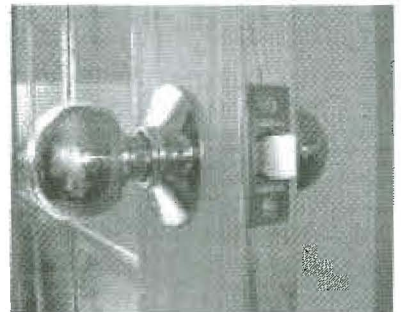

Everything you touch has germs.

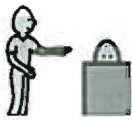

Figure 2

Here are some places where you can

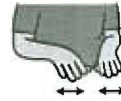

find

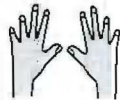

germs.

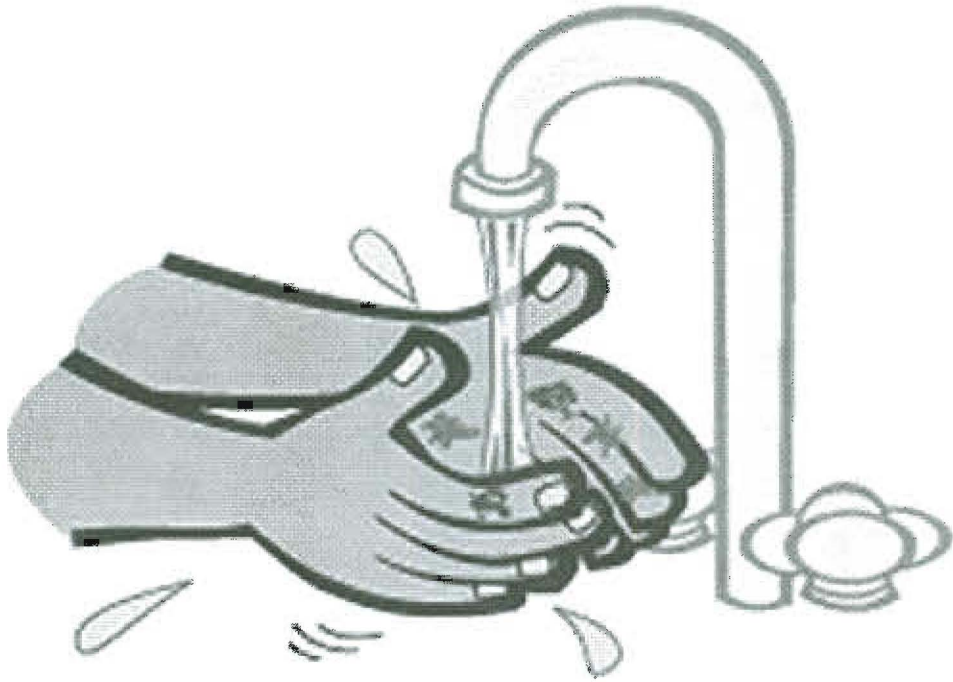

What should you do?

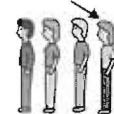

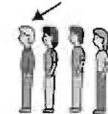

&

Wash your hands with soap and water.

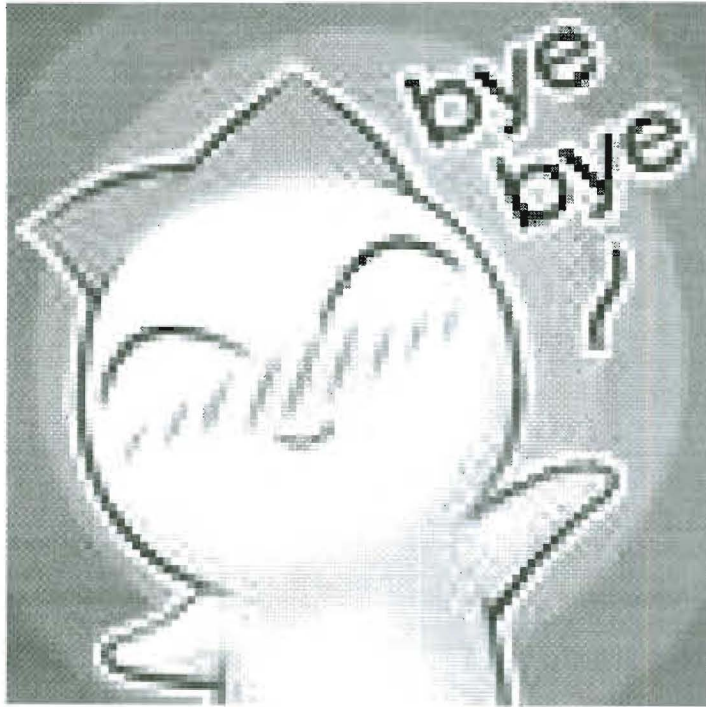

Wash your hands front to back

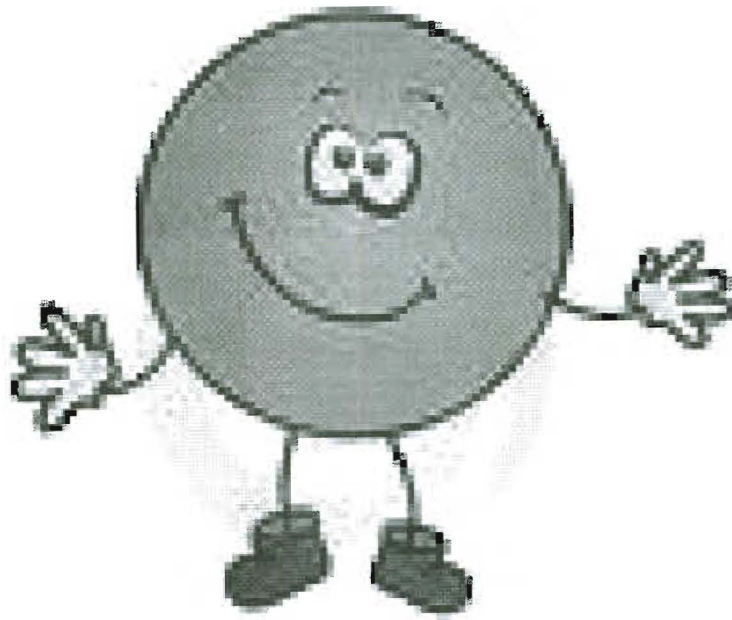

then rinse.

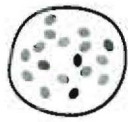

Goodbye Germs

All Clean
